Did YOU ever wish you could have all the Fresh Fruit you could eat? It is very easy to have by Planting YOUR HOME ORCHARD this Spring. YOU and YOUR FAMILY should EAT MORE FRUIT and if you raise it yourself you WILL eat it. Grow enough so there will be plenty for canning; and if you have a surplus you can sell it to your neighbors. One acre of your best land, planted to fruits of all kinds, will pay you better than any other crop you can raise. Plant your Trees and then your Small fruits in between your trees.
